GENERAL OPERATION

To Adjust Speaker Volume during a Call

You can adjust the speaker volume during a call by pressing the volume control buttons on the side of the Ear and or the volume control keys on the DK2 phone according to your preference.

Operation Range

The Hybrex DK2 Blue Tooth Interface is a very low power radio communication device. The radio communication range between the DK2 and the Headset is approximately 10 meters. Please keep both units within this range for best communication performance.

EAR PIECE SETUP

Most headsets will allow you to wear the headset on your right or left per your preference. Please consult your Blue Tooth Headset user guide for the setup required.

MAINTAINANCE

As high temperature will shorten the battery life, please do not leave your Headset in an environment with temperatures over 60ºC or in direct sunlight.

Keep your Headset away from moisture.

Cont'd

Cleaning : Use soft cloth with mild liquid soap to clean the exterior of your Cordless Headset and phone. DO NOT use abrasive chemical detergent or material to clean the Headset.

DO not attempt to pry open the cover of your Cordless Headset or change the batteries. Seek assistance from an AUTHORIZED Hybrex dealer near you.

WARRANTY SCOPE

Auto Telecom guarantees Hybrex products (excluding batteries) as being free of defects in material, design and workmanship at the time of original purchase and for a period of twelve (12) months immediately thereafter.

If, during the warranty period, the products malfunction in normal use and service (by authorized dealer), Auto Telecom or its authorized dealer will repair or replace the defective product at no cost to the original purchaser other than carriage as the warranty is provided on a "Return to Base" basis.

Auto Telecom or its authorized dealer may refuse to provide free warranty service if any of the following conditions occurs:

1. The product is adapted, modified, or changed.
2. The product exterior is cracked or broken.
3. The serial number label is tampered with or missing.
4. The product has being misused by the user in any way.
5. The product has been serviced by any agent other than a Hybrex AUTHORISED service agent

Repairs or replacements will neither give any right to extend the original warranty period nor give any right to start a new warranty period. Replaced faulty parts or components will become the property of Auto Telecom.
